Project Management

PROJECTS

GAMENIGHT

GitHub Repo | **Deployed Site**
A group project built in 8 days which allows users to create game night cards to track game nights played and victories. Implemented global state management using React's Context API.

Tech: React, React Router, Context API, JavaScript, Cypress, CSS, HTML5

RANCID TOMATILLOS

GitHub Repo | **Deployed Site**
A paired project built in five days which pulls movie data from a RESTful API to display a dashboard of movies. Implemented React Router for multi-page UI functionality.

Tech: React, React Router, JavaScript, Cypress, CSS, HTML5

TRAVEL TRACKER

GitHub Repo

A solo project built in five days which allows users to get or post trip data via an external API endpoint. Users also have the ability to add or post projects to the external API.

Tech: JavaScript, CSS, HTML5, RESTful API

PROFESSIONAL EXPERIENCE

BKD CPAs & Advisors - Tax Manager, CPA

Sep 2015 - July 2021

- Reviewed federal and multi-state tax returns in compliance with US federal and state law.
- Supervised and organized a team of junior associates to resolve problems and achieve reporting deadlines.
- Researched and reported on trends and developments concerning complex domestic and international tax issues.
